This manual is intended to fill a gap in the area of Romance studies. There is no introduction available so far that broadly covers the field of Catalan linguistics, neither in Catalan nor in any other language. The work deals with the language spoken in Catalonia and Andorra, the Balearic Islands, the region of Valencia, Northern Catalonia and the town of l'Alguer in Sardinia. Besides introducing the ideologies of

language and nation and the history of Catalan linguistics, the manual is divided into separate parts embracing the description – grammar, lexicon, variation and varieties – and the history of the language since the early medieval period to the present day. It also covers its current social and political situation in the new local and global contexts. The main emphasis is placed on modern Catalan. The manual is designed as a companion for students of Catalan, while also introducing specialists of other languages into this field, in particular scholars of Romance languages.

With a clear comparative approach, this volume brings together for the first time contributions that cover different periods of the history of ancient pharmacology, from Greek, Byzantine,

and Syriac medicine to the Rabbinic-Talmudic medical discourses. This collection opens up new synchronic and diachronic perspectives in the study of the ancient traditions of recipe-books and medical collections.

Besides the highly influential Galenic tradition, the contributions will focus on less studied Byzantine and Syriac sources as well as on the Talmudic tradition, which has never been systematically investigated in relation to medicine. This inquiry will highlight the overwhelming mass of information about drugs and remedies, which accumulated over the centuries and was disseminated in a variety of texts belonging to distinct cultural milieus. Through a close analysis of some relevant case studies, this volume will trace some paths of this transmission and transformation of pharmacological

knowledge across cultural and linguistic boundaries, by pointing to the variety of disciplines and areas of expertise involved in the process.

No one theory of time is pursued in the essays of this volume, but a major theme that threads them together is Wolfson's signature idea of the timeswerve as a linear circularity or a circular linearity, expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle.

A Readable, Updated Introduction to Textual Criticism This accessibly written, practical introduction to Old Testament textual criticism helps students understand the discipline and begin thinking through complex issues for themselves. The authors combine
