Outlines a mystical theology and experience of the sacred founded on the absence of god. Originally published in 1943, Inner Experience is the single most significant work by one of the twentieth century ' s most influential writers. It outlines a mystical theology and experience of the sacred founded on the absence of god. Bataille calls Inner Experience a “ narrative of despair, ” but also describes it as a book wherein “ profundity and passion go tenderly hand in hand. ” Herein, he says, “ The mind moves in a strange world where anguish and ecstasy take shape. ” Bataille ' s search for experience begins where religion, philosophy, science, and literature leave off, where doctrines, dogmas, methods, and the arts collapse. His method of meditation, outlined and documented here, commingles horror and delight. Laughter, intoxication, eroticism, poetry, and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience. This new translation is the first to include Method of Meditation and Post-Scriptum 1953, the supplementary texts Bataille added to create the first volume of his Summa Atheologica. This edition also offers the full notes and annotations from the French edition of Bataille ' s Oeuvres Complètes, along with an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically.

Georges Bataille (1897-1962) was an essayist, poet, novelist and philosopher of excess. His philosophy emerges from the aesthetic avant-garde of the 1920s and 30s, when he was associated with the surrealist movement, and has since been explored by the major figures of poststructuralism and postmodernism. His classic works include The Story of the Eye and The Accursed Share. On Nietzsche takes up

Nietzschean thought where Nietzsche left off - with the Death of God. Written against the backdrop of Germany under the Third Reich, the book explores the possibility of a spiritual life outside religion. In so doing it weaves an astonishing tapestry of confession, theology, philosophy, myth and eroticism - all shot through with the images of war. Translated by Bruce Boone Introduced by Sylvère Lotringer

Keuze uit het werk van de Franse filosoof (1897-1962).

Over the past 30 years the writings of Georges Bataille have had a profound influence on French intellectual thought, informing the work of Foucault, Derrida, and Barthes, among others. *Against Architecture* offers the first serious interpretation of this challenging thinker, spelling out the profoundly original and radical nature of Bataille's work.

Argues that religion is the search for lost intimacy, discusses its connection to the general economy, and examines the sacrifice of war

Until his death in 1962, Bataille was an instrumental force in philosophical debate, acting as a foil for both Surrealism and Existentialism and advocating radical views that spanned the entire spectrum of political thought. Stuart Kendall chronicles these aspects of his intellectual development, as well as tracing his pivotal role in the creation of journals such as *Documents* and *Acéphale*, and how his writings in aesthetics and art history were the pioneering cornerstones of visual culture studies. Kendall positions Bataille at the heart of a prodigious community of thinkers, including André Breton, Michel Leiris, Jean-Paul Sartre, Alexandre Kojève, Jacques Lacan and Maurice Blanchot, among many others.

One of the most profound thinkers of the twentieth century, Georges Bataille has only recently come to prominence in the Anglophone academy, partly through the influence of post-structuralism. Once seen as no more than a philosopher of eroticism and a writer of avant-garde pornography, Bataille is emerging as an absolutely central figure to discussions of culture, economy, subjectivity and difference. *Bataille* is the first volume of its kind to offer lucid, diverse and relevant examples of the ways of reading literary and cultural texts in the light of Bataille's work. The essays explore the significance of Bataillean notions like heterology, general economy, transgression and eroticism, through detailed readings of Shakespearean, Elizabethan and Jacobean literature; in analyses of Gothic and postmodern fiction; and in critiques of popular culture, rock music and Hollywood movies. In order to make Bataillean notions more comprehensible to contemporary readers, his concepts are situated in relation to the ideas of renowned critical and cultural theorists like Baudrillard, Deleuze, Derrida, Kristeva, Lacan, as well as Hegel, Freud, Nietzsche and Marx. Here the influence of Bataille is outlined in intellectual and historical terms and the significance of his work can be seen for both contemporary and futural modes of cultural analysis.
