Study guides are not specific to the level of licensure. There is one general study guide and one study guide for each pest management category. Study guides are available from CDA ' s partner the CSU Colorado Pesticide Education Program (CEPEP). Additional study materials are referenced at the end of the Licensing and Examination Guide, as well as through CSU ' s Colorado Pesticide Education Program (CEPEP). CDA does not endorse any specific test preparation course.

Abstract: Primarily designed to prepare beginning pest control operators for the Washington State PCO "general" and PCO "structural" licensing exams, this study guide is also intended to be used as a reference manual. Basic pest management concepts, management strategies, and detailed information on pest identification, life cycles, habitats, and behavior are presented. It consists of chapters on basic entomology; insecticides and rodenticides; pesticide safety and hazards; termites; ants; other wood damaging pests; cockroaches; food and fabric pests; structural pest inspections; and the pest control technician's role. This manual does not provide formulas or solved problems showing calculations for
