The 1970s was a great decade for British racing drivers, but it was also the era in which the nation lost a generation of brilliant young drivers – Roger Williamson, Tony Brise and Tom Pryce – in tragic accidents. All had the potential to be World Champions. With access to their families, friends and race colleagues, David Tremayne tells their full stories in this superb book, now available in paperback. It makes for poignant but uplifting reading.

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanlysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to . you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Triumph Bonneville: 60 Years is a celebration one of motorcycling's most iconic and beloved bikes. First manufactured in Great Britain in 1959, Triumph's legendary model resonates deeply with motorcycle enthusiasts worldwide who love its style, sound, performance, and undeniable coolness. It's no surprise that Triumph was Steve McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.
