Tying in with standard UK curricula and including core topics such as logic, ethics and political philosophy, this impartial, expert guide cuts through the jargon to give you the facts.

Philosophy at its best is an activity more than a body of knowledge. In an ancient sense, done right, it is a healing art. It ' s intellectual self-defense. It ' s a form of therapy. But it ' s also much more. Philosophy is map-making for the soul, cartography for the human journey. It ' s an important navigational tool for life that too many modern people try to do without. Philosophy For Dummies is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book's author – a modern-day scholar and lecturer – brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? This book is chock full of all those questions you may have long wanted to think about and talk with someone about, but have never had the time or opportunity to tackle head on. Philosophy For Dummies invites you to discuss the issues you find in the guide, share perspectives, and compare thoughts and feelings with someone you respect. You'll find lots of material to mull over with your friends or spouse, including thoughts on When to doubt, and when to doubt our doubts The universal demand for evidence and proof The four dimensions of human experience Arguments for materialism Fear of the process of dying

Prayers and small miracles Moral justification for allowing evil The ancient philosopher Socrates (fifth century, B.C.) thought that, when it comes to the Ultimate Questions, we all start off as dummies. But if we are humbly aware of how little we actually know, then we can really begin to learn. Philosophy For Dummies will put you on the path to wising up as you steer through the experience called life.

An easy-to-grasp guide to addressing the principles of ethics and applying them to daily life How do you define "good" versus "evil?" Do you know the difference between moral "truth" and moral relativity? Whether or not you know Aristotle from Hume, Ethics For Dummies will get you comfortable with the centuries-old study of ethical philosophy quickly and effectively! Ethics For Dummies is a practical, friendly guide that takes the headache out of the often-confusing subject of ethics. In plain English, it examines the controversial facets of ethical thought, explores the problem of evil, demystifies the writings and theories of such great thinkers through the ages as Aristotle, Confucius, Descartes, Kant, Nietzsche, and so much more. Provides the tools to tackle and understand today's important questions and ethical dilemmas Shows you how to apply the concepts and theories of ethical philosophy to your everyday life Other title by Panza: Existentialism For Dummies Whether you're currently enrolled in an ethics course or are interested in living a good life but are vexed with ethical complexities, Ethics For Dummies has you covered!

Have you ever wondered what the phrase "God is dead" means? You'll find out in Existentialism For Dummies, a handy guide to Nietzsche, Sartre, and Kierkegaard's favorite philosophy. See how existentialist ideas have influenced everything from film and literature to world events and discover whether or not existentialism is still relevant today. You'll find an introduction to existentialism and understand how it fits into the history of philosophy. This insightful guide will expose you to existentialism's ideas about the absurdity of life and the ways that existentialism guides politics, solidarity, and respect for others. There's even a section on religious existentialism. You'll be able to review key existential themes and writings. Find out how to: Trace the influence of existentialism Distinguish each philosopher's specific ideas Explain what it means to say that "God is dead" See culture through an existentialist lens Understand the existentialist notion of time, finitude, and death Navigate the absurdity of life Master the art of individuality Complete with lists of the ten greatest existential films, ten great existential aphorisms, and ten common misconceptions about existentialism, Existentialism For Dummies is your one-stop guide to a very influential school of thought.

Logic concepts are more mainstream than you may realize. There's logic every place you look and in almost everything you do, from deciding which shirt to buy to asking your boss for a raise, and even to watching television, where themes of such shows as CSI and Numbers incorporate a variety of logistical studies. Logic For Dummies explains a vast array of logical concepts and processes in easy-to-understand language that make everything clear to you, whether you're a college student or a student of life. You'll find out about: Formal Logic Syllogisms Constructing proofs and refutations Propositional and predicate logic Modal and fuzzy logic Symbolic logic Deductive and inductive reasoning Logic For Dummies tracks an introductory logic course at the college level. Concrete, real-world examples help you understand each concept you encounter, while fully worked out proofs and fun logic problems encourage you students to apply what you've learned.

The definitive guide to understanding Taoism—no matter your background or faith Lao Tzu's Tao Te Ching is the second most translated book in the world, and the practice of religious Taoism is on the rise in China, where adherents currently number in the hundreds of millions. Yet there remains a remarkable lack of reliable information about Taoism for curious westerners. Taoism For Dummies provides comprehensive coverage of Taoism's origins in China's Chou Dynasty, its underlying quietist principles, its emergence as a major religion, various interpretations of its core texts, including both Eastern and Western interpretations, key Taoist concepts, and much more. It also provides a fascinating glimpse of Taoism in contemporary China. The ideal guide for readers interested in this influential religion, as well as those taking an introductory course on Taoism or Chinese Religion A valuable source of insight for those with an interest in modern Chinese culture and beliefs

The easy way to understand atheism and secular philosophy For people seeking a non-religious philosophy of life, as well as believers with atheist friends, Atheism For Dummies offers an intelligent exploration of the historical and moral case for atheism. Often wildly misunderstood, atheism is a secular approach to life based on the understanding that reality is an arrangement of physical matter, with no consideration of unverifiable spiritual forces. Atheism For Dummies offers a brief history of atheist philosophy and its evolution, explores it as a historical and cultural movement, covers important historical writings on the subject, and discusses the nature of ethics and morality in the absence of religion. A simple, yet intelligent exploration of an often misunderstood philosophy Explores the differences between explicit and implicit atheism A comprehensive, readable, and thoroughly unbiased resource As the number of atheists worldwide continues to grow, this book offers a broad understanding of the subject for those exploring atheism as an approach to living.

Your hands-on guide to one of the world's major religions The dominant religion of India, "Hinduism" refers to a wide variety of religious traditions and philosophies that have developed over thousands of years. Today, the United States is home to approximately one million Hindus. If you've heard of this ancient religion and are looking for a reference that explains the intricacies of the customs, practices, and teachings of this ancient spiritual system, Hinduism For Dummies is for you! Provides a thorough introduction to this earliest and popular world belief system Information on the rites, rituals, deities, and teachings associated with the practice of Hinduism Explores the history and teachings of the Vedas, Brahmins, and Upanishads Offers insight into the modern daily practice of Hinduism around the world Continuing the Dummies tradition of making the world's religions engaging and accessible to everyone, Hinduism For Dummies is your hands-on, friendly guide to this fascinating religion.

What existed before the Universe was created? Where does self-worth come from? Do the ends always justify the means? The Philosophy Book answers the most profound questions we all have. It is your visual guide to the fundamental nature of existence, society, and how we think. Discover what it means to be free, whether science can predict the future, or how language shapes our thoughts. Learn about the world's greatest philosophers, from Plato and Confucius to modern thinkers such as Chomsky and Derrida and follow charts and timelines that graphically show the progression of ideas and logic. Written in plain English, with concise explanations of branches of philosophy such as metaphysics and ethics, it untangles complicated theories and makes sense of abstract concepts. It is an ideal reference whether you're a student or a general reader, with simple explanations of big ideas, including the four noble truths, the soul, class struggle, moral purpose, and good and evil. If you're curious about the deeper questions in life, The Philosophy Book is both an invaluable reference and illuminating read.

Turbocharge your reasoning with Critical Thinking Just what are the ingredients of a great argument? What is the secret to communicating your ideas clearly and persuasively? And how do you see through sloppy thinking and flim-flam? If you ' ve ever asked any of these questions, then this book is for you! These days, strong critical thinking skills provide a vital foundation for academic success, and Critical Thinking Skills For Dummies offers a clear and unintimidating introduction to what can otherwise be a pretty complex topic. Inside, you'll get hands-on, lively, and fun exercises that you can put to work today to improve your arguments and pin down key issues. With this accessible and friendly guide, you'll get plain-English instruction on how to identify other people's assumptions, methodology, and conclusions, evaluate evidence, and interpret texts effectively. You'll also find tips and guidance on reading between the lines, assessing validity – and even advice on when not to apply logic too rigidly! Critical Thinking Skills for Dummies: Provides tools and strategies from a range of disciplines great for developing your reflective thinking skills Offers expert guidance on sound reasoning and textual analysis Shows precisely how to use concept mapping and brainstorming to generate insights Demonstrates how critical thinking skills is a proven path to success as a student Whether you're undertaking reviews, planning research projects or just keen to give your brain a workout, Critical Thinking Skills For Dummies equips you with everything you need to succeed.
