banking meltdown is a fiction, read this sensational thriller.”—Bob Woodward, Politico Graham Weber has been the director of the CIA for less than a week when a Swiss kid in a dirty T-shirt walks into the American consulate in Hamburg and says the agency has been hacked, and he has a list of agents' names to prove it. This is the moment a CIA director most dreads. Like the new world of cyber-espionage from which it's drawn, *The Director* is a maze of double dealing, about a world where everything is written in zeroes and ones—and nothing can be trusted.

espionage. Into the treacherous world of shifting alliances and arcane subterfuge comes idealistic CIA man Tom Rogers. Posted in Beirut to penetrate the PLO and recruit a high-level operative, he soon learns the heavy price of innocence in a time and place that has no use for it.

The New York Times bestseller: “A remarkably timely and pulse-quickenning tale of deception, divided loyalty, and moral haziness.”—Raleigh News & Observer Harry Pappas, chief of the CIA’s Persia House, receives an encrypted message from a scientist in Tehran. But soon the source of secrets from the Iranian bomb program dries up: the scientist panics; he’s being followed, but he doesn’t know who’s on to him, and neither does Harry. To get his agent out, Harry turns to a secret British spy team known as “The Increment,” whose

Washington Post columnist David Ignatius is one of the most highly regarded writers in the capital, an influential journalist and acclaimed novelist with a keen eye for the subtleties of power and politics. In *The Sun King*, Ignatius has written a love story for our time, a spellbinding portrait of the collision of ambition and sexual desire. Sandy Galvin is a billionaire with a rare talent for taking risks and making people happy. Galvin arrives in a Washington suffering under a cloud of righteous misery and proceeds to turn the place upside down. He buys the city's most powerful newspaper, *The Washington Sun*

and Tribune, and wields it like a sword, but in his path stands his old Harvard flame, Candace Ridgway, a beautiful and icy journalist known to her colleagues as the Mistress of Fact. Their fateful encounter, tangled in the mysteries of their past, is narrated by David Cantor, an acid-tongued reporter and Jerry Springer devotee who is drawn inexorably into the Sun King's orbit and is transformed by this unpredictable man. In this wise and poignant novel, love is the final frontier for a generation of baby boomers at midlife—still young enough to reach for their dreams but old enough to glimpse the prospect of loss. The Sun King can light up a room, but can he melt the worldly bonds that constrain the Mistress of Fact? In *The Sun King*, David Ignatius proves with perceptive wit and haunting power that the phrase "Washington love story" isn't an oxymoron.

CIA soldier Roger Ferris has come out of Iraq with a shattered leg and an intense mission—to penetrate the network of a master terrorist known only as "Suleiman." Ferris's plan is inspired by a masterpiece of British intelligence during World War II: He prepares a body of lies, literally the corpse of an imaginary CIA officer who appears to have accomplished the impossible by recruiting an agent within the enemy's ranks. This scheme binds friend and foe in a web of extraordinary subtlety and complexity. When it begins to unravel, Ferris finds himself flying blind into a hurricane. His only hope is the urbane head of Jordan's
